Geon Tack Lee

M.S. Student
Kim Jaechul Graduate School of AI, KAIST
geontack@kaist.ac.kr | geon-tack-lee

Education

Korea Advanced Institute of Science and Technology (KAIST)

M.S. in Artificial Intelligence — *Aug. 2026 - Present*

- Advisor: Jaegul Choo

New York University Abu Dhabi (NYUAD)

B.S. in Computer Science — *Aug. 2020 - May 2026*

- GPA: 3.87 / 4.0
- Full ride scholarship.

Research Interests

Efficient AI, Model Compression, Computer Vision

Ongoing Research

Developing **inter-layer-aware low-rank compression** frameworks for Large Language Models (LLMs) and Vision Transformers (ViTs). Specifically, designing optimization algorithms that account for cross-layer error accumulation to preserve representational fidelity under aggressive compression constraints.

Publications

Slide&Prune: A Unified Pruning Framework for Joint Low Rank Compression and Channel Sparsification via Sliding Window

Geon Tack Lee*, Hyunjung Yi*, Jaegul Choo, Kang Eun Jeon (* equal contribution)

Under Review

Denoised Variance-Based Pruning with Optimal Brain Bias Compensation

Geon Tack Lee, Jaegul Choo, Kang Eun Jeon

*The 19th European Conference on Computer Vision (**ECCV**), 2026*

Experience

DAVIAN Lab, KAIST AI

Research Intern — *Dec. 2025 - Aug. 2026*

- Efficient AI, Low-rank Compression for ViTs and LLMs, Structured Pruning for ViTs
- Advisor: Jaegul Choo and Kang Eun Jeon

Embodied AI and Robotics Lab, NYUAD

Research Assistant — *May. 2025 - Dec. 2025*

- Computer Vision, Sign Language Translation
- Advisor: Yi Fang

MoMA Lab, NYUAD

Research Intern — *Jun. 2022 - Jul. 2022*

- Security and ML, Machine Learning Framework for Industrial Control Systems
- Advisor: Michail Maniatakos and Constantine Doumanidis

Honors & Awards

2022 **2nd Place**, NYUAD International Hackathon for Social Good Focusing on Quantum Computing
